Jeff:

I am currently on a mercury response. Could you talk with John Haulk and find out what cleanup standards the LDEQ would be looking for to get closure on these pits. I can use that as to be considered. He will likely need our data as well.

Thanks

Wanted to let you know that I contacted Greg Powell and received his email correspondence regarding Delta Shipyards. I had some follow-up questions for him but he has been unable to respond. I wanted to get his input on any specific test that should be run during the treatability analysis. I've forwarded the Delta data and site information to our people in Houston and I'm currently awaiting their feedback. The last time we spoke you mentioned that you were deciding what analytes/parameters for which to run contour maps. We can still do that if you like just let me know which ones to run. I've attached a copy of the project summaries for the Week Ending 11/09/12. Looks like we have about \$11,150 remaining on the budget.
